# Yates Industries Supplier to the Steel Industry

Yates Industries manufactures and rebuilds hydraulic and pneumatic cylinders. We specialize in servicing steel mills with the largest and most complete facilities in the Midwest. In addition, we have just opened a NEW repair and specialties center in Decatur, Alabama to better serve our southern customers.

## We support various areas of mills such as:

- Continuous casters
- Hot and cold mills
- Pickle lines
- Hot dip galvanizing lines
- Electro galvanizing lines
- Temper lines
- B.O.P. facilities
- And, MORE...

Yates Industries has provided hassle-free cylinder service and components to the steel industry for over 25 years.

## Yates also manufactures new:

- H6 Series: Heavy Duty Hydraulic (3000 PSI)
- H4 Series: Medium Duty Hydraulic (up to 1500 PSI)
- A4 Series: Heavy Duty Steel Air (250 PSI)
- A2 Series: Aluminum Air (250 PSI)

All Cylinders are JIC-NFPA interchangeable and are available in sizes ranging from 1½" - 20" bores with up to 23 mounting styles.

## We also provide:

- Air/Oil Intensifiers
- All Stainless Steel Cylinders
- Air/Hydraulic Welded & Mill Type Cylinders
- Special Cylinders per Customer Supplied Prints and Specifications
