

Solar cell gripper

Bernoulli – Gripper for solar cell handling

Solar cell gripper

Optional:
Sensor for cell detection

1

Micro valve for fast actuation

2

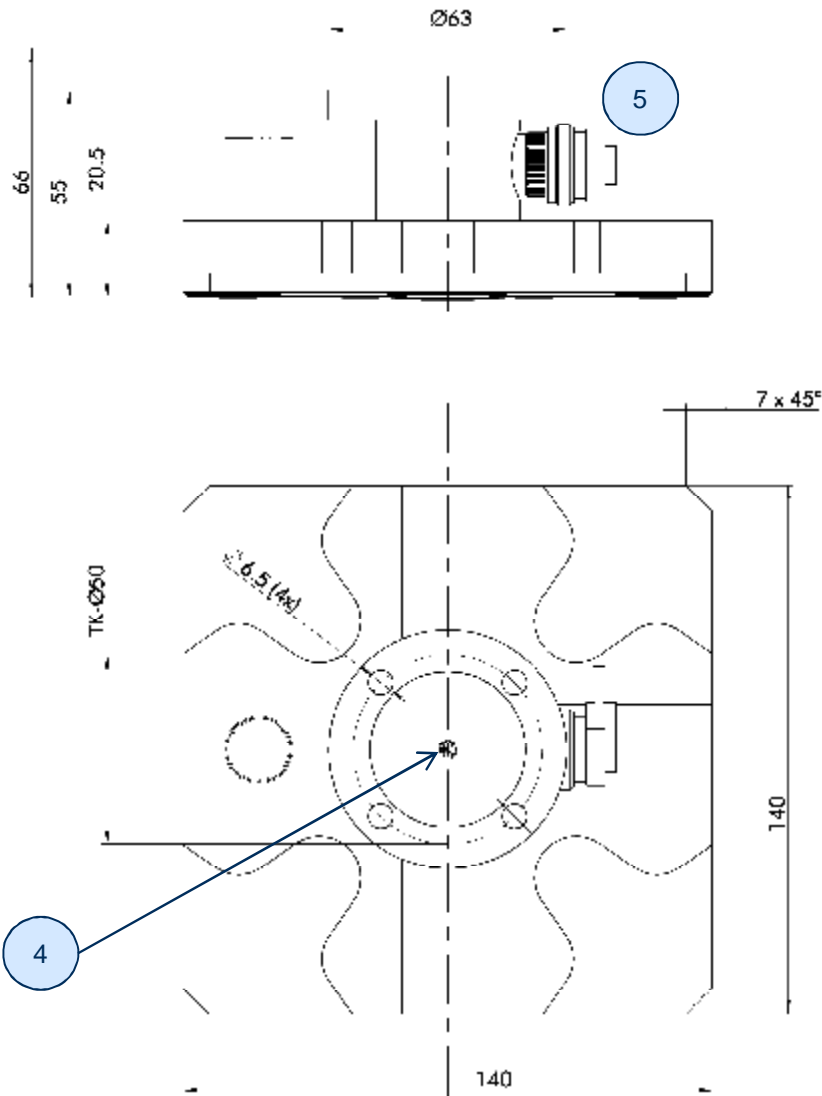

PUR Friction Pad for higher accelerations

3

Base of the gripper made of plastic

The dimensions are smaller than the cell in order to enable vision detection of the cell

Dimensions for 156 mm x 156 mm cells

Pneumatic connection 6 bar

4

Micro valve control 24 V DC

5

Weight approx. 500 g
