**Tylok letter of Warranty when interchanging or intermixing
CBC-Lok[®] with Swagelok[®] or Parker A-Lok[®] tube fittings.**

NOTICE

In designing a system incorporating tube fittings and valves, it is the designer's or user's obligation and responsibility to determine the appropriate fittings and valves to be used for each application, and to insure proper installation and maintenance.

LIMITED WARRANTY

Tylok fittings and valves are warranted solely against defects in material and workmanship in the performance of the specific functions for which they are designed, as set forth in the published specifications for a period of 12 months. Should any fitting and valve or its component fail due to a defect in material or workmanship, Tylok will replace said fitting and valve without charge upon return of the failed part and evidence of its failure being due to materials or workmanship.

The Warranty above set forth is the only warrant applicable to Tylok products, and is in lieu of any and all other warranties either express or implied, including any warranty of merchantability or fitness. Tylok's sole responsibility or liability as a result of any loss or damage due to a failure shall be to replace the failed part or fitting and valve, and it shall bear no liability for any incidental or consequential damages to person or property.

The above information can be found in CBC-Lok[®] Tube Fitting catalog, last page.

Further, Tylok's Limited Warranty will apply in instances where CBC-Lok[®] bodies, front collets (ferrules), rear collets (ferrules) and nuts are assembled (interchanged/intermixed) with fractional, compression, tube fittings manufactured by Swagelok[®] or Parker A-Lok[®]. Example: CBC-Lok[®] - Swagelok[®] combination or a CBC-Lok[®] - Parker A-Lok[®] combination, but not a combination of all three. The Warranty only applies when fittings are properly assembled (see CBC-Lok[®] Tube Fitting Catalog Doc. 72305, CBC-Lok[®] Tube Fitting Installation Instructions Doc. 72301, Swagelok[®] Installation Instructions or Parker A-Lok[®] Installation Instructions for definition) and when Swagelok[®] and Parker A-Lok[®] quality control standards have been met. In instances where Swagelok[®] or Parker A-Lok[®] quality control standards have not been met, per associated Quality Manuals, the above stated Warranty is null and void. No warranty will apply when CBC-Lok[®] is used in combination with a fitting manufactured by anyone other than Swagelok[®] or Parker A-Lok[®]. Tylok International, Inc., shall not be held liable should a failure occur due a defective body and/or component(s), of other manufacturers.

Regards,

Mike Palinkas
Vice President Sales
